VOICEMAIL SETUP

To Enroll with Voicemail (first use)

1. Press the **Messages** button.
2. Enter the first time enrollment initial PIN = **97531**, followed by #.
3. Follow the prompts to enroll:
 - Record your name - press # after stating your name
 - Record your Standard Greeting - press # after recording your greeting
 - Set a new PIN number. The minimum length is 4 digits. You can not use your last PIN. Your PIN expires in 365 days (1 year).

Notes:

- Your Deleted mail is discarded after three days.
- You will be locked out of your mailbox with 5 consecutive invalid attempts.
- If you are locked out, your mailbox will be locked for 10 minutes.
- Trivial (easy) PIN numbers are not allowed. The system will notify you if your selected PIN is accepted or not.

VOICEMAIL INDICATIONS

1. Handset light strip will be solid red.
2. Flashing envelope icon next to line button.
3. "You Have VoiceMail" will be displayed on the line of information in your LCD screen.

DISPLAY CONTRAST

1. Press the **Settings** button.
2. Press 1 on the dial pad, or scroll to User Preferences and select it.
3. Press 4 on the dial pad, or scroll to Contrast and select it.
4. Use the Down / Up soft keys to set the desired contrast.
5. Press the **Save** softkey to save the setting.

VOLUME SETTINGS

Ring

1. With your phone idle, press the **Volume Control** key to adjust the ring volume.
2. When the ring times out, the setting will be saved automatically.

Handset

1. With the handset Off-Hook, press the **Volume Control** key to adjust the handset volume.
2. Press the **Save** softkey to make the change permanent. If the **Save** softkey is not pressed, the volume returns to the original level when the handset is placed back On-Hook.

Speaker

1. With the speaker activated, press the **Volume Control** key to adjust the speaker volume.
2. Press the **Save** softkey to make the change permanent. If the **Save** softkey is not pressed, the volume returns to the original level when the speaker is deactivated.

Headset

1. With the headset activated, press the **Volume Control** key to adjust the headset volume.
2. Press the **Save** softkey to make the change permanent. If the **Save** softkey is not pressed, the volume returns to the original level when the headset is deactivated.

SRST (Failover) MODE

1. When phones are in SRST mode, "Network Failure—SRST Mode" is displayed on the phone.
2. Calls within the site operate normally (dial extensions as listed above)
3. External calls operate as usually. Dial **8** + desired number.
4. Some features may not be available during this time.

ANSWERING AN ADDITIONAL CALL

1. While on a call you will hear a call waiting beep indicating a new incoming call.
2. Press the **Answer** softkey to automatically put the first call on hold and answer the incoming call.

PLACE A CALL ON HOLD

1. During a call, press the **Hold** softkey.
2. To return to the held call, press the **Resume** softkey.
3. If multiple calls are on hold, use the **Navigation** button to select a call then press the **Resume** softkey to return to the held call.

ENDING A CALL

1. To disconnect from a call, place the Handset in the cradle, press the **Speaker** button, **Headset** button, or the **End Call** softkey.

CALL TRANSFER

1. With a call in progress, press the **Transfer** softkey. The current caller is placed on hold.
2. Dial the number/extension to which you want to transfer the call.
3. Then perform one of the following:
 - Blind Transfer — when you hear ringing press the **Transfer** softkey or disconnect from the call to complete the transfer.
 - Supervised Transfer — announce call to called party then press the **Transfer** softkey or disconnect from the call to complete the transfer.
 - Cancel the transfer — press the **End Call** softkey which will disconnect you from the called party. Press the **Resume** softkey to return to the held call.
4. **To transfer a caller directly to a voicemail box, dial * + extension**

CONFERENCE CALL

1. With a call in progress, press the **Confm** softkey. The current caller(s) is/ are placed on hold.
2. Dial the number/extension of the party you wish to add to the call.
3. When the party answers, press the **Confm** softkey to add this party to the conference.
4. Repeat steps 1 - 3 to add more callers.

Notes:

- The maximum callers in a conference are **8**.
- Only the initiator can add additional parties to the conference.
- The conference remains up if the initiator disconnects.
- There must be at least one internal party on the conference call or else the call will drop.

CONFERENCE LIST

1. While on a Conference call, press the **ConfList** softkey. The conference participants are displayed in your screen.
2. Press the **Update** softkey to update the conference list. The list does not automatically update as participants get added / removed.
3. The initiator can remove a party from the conference by highlighting the party then pressing the **Remove** softkey.
4. Press the **Exit** softkey to exit the display.

FORWARD ALL CALLS

1. Press the **CFwdAll** softkey.
2. Enter the number to which you want to forward all of your calls.
3. To remove call forwarding, press the **CFwdAll** softkey.

Notes:

- Enter the number exactly as you would if you were placing a call from your phone (include an **8** for an outside line).
- It is good practice to verify that your calls are forwarded to the correct number by dialing your extension.
- To forward your calls to voicemail, press the **CFwdAll** softkey followed by the **Messages** button.

LAST NUMBER REDIAL

1. Get dial tone and press the **Redial** softkey, or simply press the **Redial** softkey to activate the speaker.

CALL PARK

1. While on an active call press the **Park** softkey. Your caller is put on hold in the system. Take note of the park number displayed in the display screen.
2. To retrieve the parked call, get dial tone and dial the park number.
3. The call will be parked for **120** seconds. After this threshold is met, the call is returned back to the party that parked the call.

CALL PICKUP

1. Call Pickup - To pickup a ringing extension in your group.
2. Press the **PickUp** softkey. The call is directed to your phone.
3. Press the **Answer** softkey to answer the call. If the call is not answered, the call is returned to the original party.

SPEED DIAL

1. Get dial tone and press a Speed Dial button (programmable button that displays the  icon). Call is placed to the speed dial destination.

BUSY LAMP FIELD (BLF) / SPEED DIAL
